Sir:

In response to the Office action dated March 31, 2003, applicant hereby elects Group III as defined in the Office Action. Applicant also elects the gene Rv2348c. These elections are made with traverse.

The Examiner has not even addressed the issue as to how examination of a broader scope of subject matter would somehow impose an undue searching burden. Without establishing such a burden, the restriction requirement is unjustified.

The Commissioner is hereby authorized to charge any fees associated with this response or credit any overpayment to Deposit Account No. 13-3402.

Respectfully submitted,
